

Quantia[®] HbA1c Control For QC

Intended Use: _____

For monitoring the precision of laboratory testing procedure for HbA1c quantitation, for validating the calibration and performance of Quantia[®] HbA1c reagents.

Quantia[®] HbA1c control:

Quantia[®] HbA1c control	Lyophilized control
Other Accessories	Package Insert

FEATURES	BENEFITS
Freeze dried reagent	Aids in minimizing microbial contamination Improves reagent stability

Storage / Stability	Temperature	Duration
Unopened	2-8°C	12 months
Reconstituted reagent	2-8°C	7 days when stored tightly capped

Available Pack Sizes
1 x 0.2 ml
