

	Fluorescence Immunoassay for quantitative determination of 25-OH-Vitamin D in human serum, plasma and whole blood
Application	FIAcheck 25-OH-Vitamin D Fluorescence Immunoassay is intended for the in-vitro quantitative measurement of 25-OH-Vitamin D in human serum, plasma and whole blood.
Principle	Rapid, lateral flow, quantitative immuno-fluorescence assay
Measuring range	5.0-70ng/mL
Reagents	Membrane assembly coated with <ul style="list-style-type: none"> • Immobilized 25-OH-Vitamin D antigen on test line • Sheep anti chicken IgY in control line • Mixture of 25-OH-Vitamin D sheep monoclonal antibody and chicken IgY labeled with fluorescent microspheres on the binding pad Sample diluent
Test duration	10 mins + 10 mins
Storage / Stability	4-30°C, 12 months

Presentation	Pack	Cat.No.
FIAcheck 25-OH-Vitamin D kit contains an individually pouched device and special tip, sample diluent, calibration QR code card and dilution vials	10 Tests	542010010
